

----- FOR IMMEDIATE RELEASE -----

The New **RDM-3P** from Delmhorst

Delmhorst Instrument Co. has been an innovator in moisture measurement technology for more than 60 years. Following in this rich tradition, Delmhorst introduces the RDM-3P, a versatile moisture meter which meets and then exceeds the demands of plant superintendents, production personnel, inspectors, buyers, and salespeople in the paper and pulp industry.

The RDM-3P is fully equipped for testing paperboard, corrugated stock, and paper tubes using its paper scale, 0-100 reference scale, and baled paper scale. Whatever the situation calls for, the RDM-3P delivers. Advanced storage and recall features make it easy to organize multiple jobs, or even download data to a PC via the optional linkage software. The paper production industry has a new ally in the reliable and precise RDM-3P!

Outstanding features:

- 5.3-23% MC on paper
- 0-100 reference material scale
- 8-40% MC on baled paper
- Universal connector accepts Delmhorst external electrodes for:
 - Paper tubes
 - Moving web of paper
 - Stacked paper
 - Corrugated stock
- Auto-shut off timer saves battery life
- Menu driven operation is a cinch
- Store and recall readings, or send to PC with optional software
- Rugged construction ensures years of reliable use
- Sturdy plastic carrying case
- 9-V Battery
- 1 year warranty
