****For Immediate Release - December 2003****

BD-2100 Flooring Package – designed to meet the needs of the flooring professional. Package includes: the BD-2100 moisture meter, 26-ES slide hammer and a rugged carrying case. Stop by our booth G1801 at Surfaces 2004 for a demonstration of this product.

BD-2100 Features:

- 6%-40% moisture range on wood
- 0-100 reference scale for non-wood materials
- 0.2%-50% moisture range on gypsum
- Digital readout
- Set point alert

“For nearly 60 years, Delmhorst has provided quality moisture meters. The BD series meters are designed for the flooring contractor with a high degree of accuracy and reliability, and are the most well received meters in the industry, notes Paul Laurenzi, Vice President – Sales & Marketing at Delmhorst.

Delmhorst – when accuracy is the point!
