### **\*\*For Immediate Release - April 2004\*\***

**BD-2100 Flooring Package** – designed to meet the needs of the flooring professional. Package includes: the BD-2100 moisture meter, 26-ES slide hammer and a rugged carrying case. Stop by our booth 338 at the NWFA Convention for a demonstration of this product as well as our other meters for flooring.

#### **BD-2100 Features:**

- 6%-40% moisture range on wood
- 0-100 reference scale for non-wood materials
- 0.2%-50% moisture range on gypsum
- Digital readout
- Set point alert

“For nearly 60 years, Delmhorst has provided quality moisture meters. The BD series meters are designed for the flooring contractor with a high degree of accuracy and reliability, and are the most well received meters in the industry, notes Paul Laurenzi, Vice President – Sales & Marketing at Delmhorst.

***Delmhorst – when accuracy is the point.™***
