November 2004 – FOR IMMEDIATE RELEASE

The New RDM-3 Wood Moisture Meter by Delmhorst – Available Fall 2004

Delmhorst Instrument Co. announces a brand new meter for the lumber and woodworking industries. The newly designed RDM-3 moisture meter is a handheld meter packed with features. New innovations include: full onscreen reading recall with date and time stamp, job grouping, graphical display, easy to navigate menu options, customizable auto-shut off, optional infrared linkage to a PC, optional application software program and great looking two-tone case with rubber grip handle.

Outstanding features:

The **RDM³** is ideal for anyone who needs to collect and analyze key statistical information.

- 6-60% MC range depending on species/temperature
- Built in wood species corrections for 69 species of wood
- Built in temperature compensation over the range of 0° to 255° F (-18° to 124°C)
- Integral contact pins mounted on top of meter provide 5/16" penetration
- Connector for external electrode
- On-screen reading recall of up to 1400 readings
- Date and time stamp for each stored reading
- Job groupings
- Optional infrared linking capability w/ application software*
- 0.1% MC resolution
- Operating Temperature -4°to158°F (-20° to 70°C)
- 9V battery
- 1-year warranty
- Carry case

“Delmhorst Instrument Co. has manufactured moisture meters for nearly 60 years. We are excited to offer a cutting edge meter for the Lumber Industry and we are certain the RDM-3 will take its place as the industry leader, notes Paul Laurenzi, Vice President -- Sales and Marketing at Delmhorst.”
