November 2004 – FOR IMMEDIATE RELEASE
Great new products from Delmhorst – Available January 2005!!!

Delmhorst Instrument Co. announces two brand new meters to add to its product assortment, specifically designed for flooring installers, general contractors, home inspectors and IAQ specialists. **MoistureCheck** and **TotalCheck** combination meters are packed with features. New innovations for both models include full onscreen reading recall with date and time stamp, job grouping, infrared linkage to a PC or laptop, *application software program, easy to navigate menu options, customizable auto-shut off, and great-looking two-tone case with rubber grip handle. **TotalCheck includes a thermo-hygrometer which calculates GPP and Dew point and measures Temperature and RH. The RH sensor is removable and conforms to the ASTM-F2170 standard for concrete testing.**

Product specific features include:

MoistureCheck

- Two-in-one moisture meter
- Pin mode
 - 6-40% wood scale
 - 0-100 numerical reference scale
 - 0.1% - 6% sheetrock scale
- Scan mode
 - 0-200 numerical reference scale
- Connector for external electrodes
- 9V battery
- Carrying case

*application software program is optional for MoistureCheck

TotalCheck

- Three-in-one meter w/ thermo-hygrometer
- Pin mode
 - 6-40% wood scale
 - 0-100 numerical reference scale
 - 0.1% - 6% sheetrock scale
- Scan Mode
 - 0-200 numerical reference scale
- Thermo-hygrometer
 - RH Sensor -- conforms to ASTM F-2170
- Connector for external electrodes
- Infrared Linkage & Software application
- 9V battery
- Carrying case

“Delmhorst Instrument Co. has manufactured moisture meters for nearly 60 years. We are excited to offer cutting edge products that meet the growing demands of industry professionals in flooring, home inspection, and IAQ. TotalCheck and MoistureCheck raise the bar in moisture measurement and will quickly become the industry leaders,” notes Paul Laurenzi, Vice President -- Sales and Marketing at Delmhorst.
