**October 2006 – FOR IMMEDIATE RELEASE  
Delmhorst Celebrates 60 years in business!!!!**

Delmhorst Instrument Co. is proud to announce that this is our 60<sup>th</sup> year in business. Bill Delmhorst started founded the company in 1946 and it has been run by the Laurenzi family since 1962. Initially, Delmhorst sold one model to building superintendents in New York City to help them identify leaks in roofs and plaster walls. Today, we serve more industries than all of our competitors combined, and are recognized as the market leader in each of those industries. Delmhorst has built its reputation for designing, manufacturing, and marketing the highest quality moisture meters on the market and maintaining a superior level of customer service. Delmhorst Instrument Co. looks forward to serving the moisture meter industry for many more years.

“On behalf of the Laurenzi family and all of us at Delmhorst, I would like to thank everyone who has contributed to our 60 years of success. We have grown in many ways since our inception, and I can assure you that Delmhorst will continue to be at the forefront of new technologies and will always uphold our stellar reputation by offering our customers the best product assortment and a superior level of after-sales support,” notes Paul Laurenzi, Vice President -- Sales and Marketing at Delmhorst.
